

## *Hello YTC Family!*

Welcome to Contact Point, our bi-monthly newsletter named after what is considered the most important relationship in tennis, the contact point. At YTC, we aim to ace our relationship goals every time. We have built our reputation on the relationships we have with our patrons, and we guard our reputation seriously. However, just like tennis, sometimes we just frame the ball. Regardless, we strive to understand, adjust, learn from our mistakes and get back to what we love...getting you "Movin n' Groovin" on the courts! Here is hoping this is an informative newsletter you will come to love and look forward to reading.

## *Safety*

As new Covid variants are starting to show up around Westchester County, though over 90% vaccinated; we cannot let our guard down. We are all getting a bit lax and need to remain vigilant and continue to follow Covid protocols when at the club. Please be advised that we are still following our masking policies, while respectfully asking those who are showing symptoms or awaiting Covid tests results, to please stay home and keep our YTC family safe. Should you test positive, contact our General Manager, Kathy Galante immediately [kgalante@yonkerstennis.com](mailto:kgalante@yonkerstennis.com). We diligently continue our cleaning schedule which includes fogging at night and we will increase methods as needed. Please refer to the following: [Yonkers Tennis Center Covid Policy](#)

## *Staff Updates*

YTC welcomed three new family members this season! Each plays an important role in making the club function well. Please say hi when you see them around!

### *What is NET GENERATION?*

Most tennis facilities are not fully transparent about what happens on the court. From a parenting perspective, it has always been hard to track you kids progress. We found a solution to this by teaming up with Net Generation, the USTA's umbrella program for junior tennis in America. As your kids begin their playing journey, you will be able to follow progress from the start of the season to the end (of their junior career ☐). Your child will leave the program with a better understanding of themselves, a routine and most importantly, a love for the game of tennis.

Please take a few seconds out of your busy day to check the video below which highlights the benefits of the Net Generation Program:
